PROJECTS

Mobile App for PJTSAU

KL University Hyderabad

📅 Sept 2024 – Present

📍 Hyderabad, India

- Developed a mobile application for the Professor Jayashankar Telangana State Agricultural University (PJTSAU) to assist farmers in resolving agricultural issues. The app allows farmers to upload images of their crops, which professors review to provide expert solutions. Additionally, the app gathers data to build a comprehensive dataset for future AI model training aimed at predictive analysis and automated support for farming.
- Keywords:** Mobile Development, Agriculture Support, Data Collection, AI Integration

Student Activity Centre Server

KL University Hyderabad

📅 August 2023 – October 2023

📍 Hyderabad, India

- I've successfully developed a file storage server tailored for the Student Activity Centre, providing seamless access to important documents and resources. This server enhances organization and accessibility, facilitating smooth collaboration among students and staff.
- Keywords:** Linux, Server, Security measures

Smart Farming IoT Project (AI-Driven Weed Detection)

KL University Hyderabad

📅 October 2023

📍 KL University Hyderabad

- Implemented an IoT-based solution that utilizes AI for detecting weeds and unwanted pests in large-scale farms, enabling farmers to identify and address infestations efficiently.
- Keywords:** IoT, AI, Image Recognition

Platform to Share Trained AI Models

KL University Hyderabad

📅 February 2025

📍 Hyderabad, India

EXPERIENCE

Data Analyst Intern

Opal Nexus

📅 March - June 2024

📍 Hyderabad, India

- Collect and analyze user data to understand user behavior and product performance.
- Develop data-driven insights to inform product decisions and marketing strategies.
- Identify trends and opportunities for product improvement.
- Create reports and presentations to communicate findings to stakeholders.

Intern

Pramana

📅 May - Aug 2025

📍 Bengaluru, India

- Developed features and maintained pipelines.

Intern

Evident Microscopy

📅 Aug 2025 - Present

📍 Bengaluru, India

- Developed features and maintained pipelines for Medical and WSI Data.

ACHIEVEMENTS

2-Time Hackathon Winner

- Successfully led a team to victory in two 24-hour hackathons, showcasing innovation, leadership, and teamwork to win both events.
